

## THE BACKWOODS DIFFERENCE

### ADVANCED (TIER II) SECURITY RESPONSE:

In high-risk settings, we utilize guards with thorough law enforcement experience. They assess risks, proactively manage conflict resolution, swiftly deescalate situations, and collaborate professionally with local law enforcement.

### SOFTWARE & TECHNOLOGY:

Our customers request continual updates on activities at their sites and facilities. To meet this requirement, we've implemented cutting-edge software that deliver real-time updates, ensuring our partners receive prompt notification of any critical incidents.

### PHYSICAL SECURITY:

At Backwoods, our experienced, uniformed guards undergo meticulous screening to ensure they fulfill all necessary qualifications and training prerequisites. We consider character and demeanor to ensure our guards are reliable and dedicated to their responsibilities. At Backwoods, we prioritize providing customized training mandated by our clients before deployment.

### TECHNOLOGY ASSISTED SOLUTIONS:

Backwoods provides advanced technological solutions designed to enhance or even substitute traditional manned security measures for safeguarding your assets and premises. Our range of offerings includes CCTV cameras, Remote Surveillance Trailers, and Access Control Systems.

Through a comprehensive risk assessment, our security program tailors our service for the customer by integrating three primary components:

Human Factor | Physical Barriers | Technology Solutions
